Experience [Liceum DZDZ — WordPress Developer](#) Part time (01/2024 - Present)

- Designed and developed a custom WordPress theme using PHP, JavaScript, and TailwindCSS.
- Created 5 custom Gutenberg blocks for flexible content management.
- Integrated and configured Advanced Custom Fields (ACF) for easy content editing via the admin panel.
- Set up and customized Contact Form 7 for user inquiries.
- Implemented a basic CI/CD workflow for automated deployment to hosting.
- Performed basic SEO setup to improve search engine visibility.
- Continue to maintain and administer the site, applying updates and providing technical support.

Stack: Html / PHP / JavaScript / TailwindCss / ACF

[Fundacja Terranova — WordPress administrator](#) Part time (08/2023 - Present)

- Provided technical support and troubleshooting for multiple Elementor-based websites, including plugin updates, resolving issues, and content maintenance to ensure site stability and relevance.

Stack: Elementor

Key Skills

Custom Theme Development

Experienced in developing WordPress themes using both the classic approach (without build tools) and a modern stack based on the [Roots ecosystem](#) (Sage, Bedrock). Proficient in [TailwindCSS](#) for responsive design and [GSAP](#) for advanced animations. Confident in working with Advanced Custom Fields (ACF). Skilled in registering custom post types (CPT), taxonomies, custom menus and theme settings. Focused on clean architecture, scalability and performance.

SEO Optimization

Skilled in setting up basic on-page SEO, including meta tags, headings structure, and performance improvements. Experienced in configuring and managing Google Search Console for site indexing, monitoring, and issue resolution.

Hosting & Server Management

Confident in working with FTP, SSH, file systems, and permission management across various hosting environments. One year of experience using Linux as a primary OS, which enhances my ability to configure and manage servers via SSH. Capable of setting up basic CI/CD pipelines for automated deployment to production or staging servers.

Proficiencies

JavaScript/GSAP	WordPress/ACF	Composer	FTP	VsCode
HTML/CSS/SCSS	Bedrock/Sage	NPM/Vite	SSH	Figma
TailwindCss	PHP/MySQL	Git/Github	Linux	Notion

Secondary JQuery, Gutenberg, Contact Form 7, Elementor, CI/CD, GhatGPT, Framer, WP_Query, Custom Post Types (CPT)

Education Terra Nova — Technical College | Technician Programmer Ongoing (09/2021 - 06/2026)
